Why buyers trust Turkish factories

01 From fibre to finished product

Many mills spin, weave, dye and sew under one roof, so quality is controlled at every step.

02 Built for European standards

Producers work every day with CE marking, REACH, textile and food-safety certificates required by EU buyers.

03 Trusted by global brands

Many factories already produce for European and Gulf retailers under the buyer's own label.

04 Close to your market

Trucks reach central Europe in days and short sea routes serve the Gulf and North Africa, so small and repeat orders make sense.
